Now it appears to us that these truisms are all applicable to the present electoral contest. Our two great enemies are liquor and slavery. The latter, now under a new name and modified conditions, is still the disturbing element in our commonwealth

It is said, and we believe truly, that hquor kills its 60,000 a year. We would give it more But the four years' war killed, in one way and another, the energies of those it did not kill to support the war, and left a crushing debt behind it.

THE survivors of the Andersonville prison pen have organized an Anderson ville survivor's association The objects of the association as set forth in a circular are-1. To ascertain, as near as possible

the names, postoffice address, company and regiment, of all Andersonville and southern prisons' survivors and a condensed record of cach one's experience and sufferings during prison life 2. To organize state and county as sociations in every state.

3. To propagate a feeling of patriotic fellowship and devotion to the same great principles for which we fought and suffered, and to spread a proper and truthful knowledge of the cruelties and indignities which we endured while

6 To raise money for a relief fund, by publishing and selling a lithographic picture, and history of Andersonville

The picture which it is proposed to publish is taken from a sketch made by a sick prisoner while confined in the hospital, and is vouched for as a correct picture of Andersonville prison hospital and stockade, and is sold at fifty cents. Mr. Felix De LaBaume, is the managing officer of the association for Illinois, and any information in regard to it can be obtained by addressing him at room 18, Reaper block, Chicago

MANUFACTURE AND SELL

MERRILL & BARTLETT'S Water-Purliying

Rubber Bucket Chain Pump. And is prepared to furnish said Chain Pumps on short notice.

Pumps on short notice.

The advantages of this Pump over many others are many. The Chain being buttonless, it is much lighter, consequently it is not lishle to break, and works much easier. The RUBBER BUCKETS which are strached to the Chain will not wear the Tubing, consequently it will last longer than when Metal Enttons are used. It is, positively ANTI-FREEZING. It is a positive WATKE PURIFIER, as each Bucket is constructed with an AIR CHAMBER, which carries a given quantity of pure air into the water, which immediately diffuses through the eptite body of water, purifying and cleaning, and rendering it fit for use.
